

eLearning Task Force

Task

The *e-Learning Task Force* of the Coimbra Group has as its task to support the Coimbra Group universities in the development of the use of ICT in traditional, blended and distance learning and teaching.

Actions

1. To support the Coimbra Group rectors and senior university staff in the development of strategies for effective use of ICT in education.
2. To co-ordinate the creation of central information sources on current projects and developments in Coimbra Group universities in the area of e-learning and make that available to the Coimbra Group universities and their staff.
3. To make contact with (senior) staff in Coimbra Group universities with responsibility for the area of e-learning and create networks for sharing information and for collaboration
4. To disseminate good practice in e-learning through electronic and traditional mechanisms.
5. To work with groups and agencies with related missions and objectives to improve the interchange of information in the area of e-learning and to make this readily available to Coimbra Group universities.
6. To stimulate and interact with other Task Forces of the Coimbra Group.
7. To gain project funding, through the Coimbra Group Office, from EU and other sources to support the activities of the Task Force.
