

A tradition of innovation

General Presentation, January 2025

Commitment

Founded in **1985** the Coimbra Group is an association of **long-established European multidisciplinary universities of high international standard**.

The Coimbra Group is committed to creating special academic and cultural ties in order to **promote internationalisation, academic collaboration, excellence in learning and research, and service to society**.

It is also the purpose of the Coimbra Group to **influence European education and research policy** and to **develop best practice** through mutual exchange of experience.

One of the pioneering actors in the creation of Erasmus+, the co-creation of the European Universities Initiative, and the development of the European Higher Education Area (EHEA).

EU Projects

- **EUNIVERSE (2023-2026) - European Universities United in / for Values and Diversity**
<https://www.euniverse-project.org>

This Erasmus+ project aims at improving **students' mobility and integration** by implementing **European values and civic engagement** initiatives into learning activities that boost student skills and intercultural understanding.

The learning activities being devised by the project are challenge-based. They aim to empower students, by getting them more involved in campus life and their institutions. In time students will become instrumental in developing and diffusing an inclusive and international mindset. The consortium also believes that the implementation of EU values is bound to impact the institutional environment of students and staff.

Three-Minute Thesis (3MT) Competition

- Since 2017 the Coimbra Group has organised a 3MT competition at network level.
- The 3MT challenges **PhD students** to describe their research to a general audience in English in less than three minutes.
- In 2024, the video entries of PhD students from **25 CG Universities** competed in the first virtual round (the winner of their own institutional competition).
- **Three finalists** are then shortlisted among all winners. They compete during the CG live final taking place at the CG Annual Conference in June.

Scholarship Programmes

Background: Since 1999 the Coimbra Group has offered young researchers from outside the EU the **opportunity to carry out part of their research for a period of one to three months at a Coimbra Group University.**

The CG scholarship programme for short research stays in Europe is intended **for young researchers and staff from universities in Latin America, Sub-Saharan Africa and the European Neighbourhood.**

2023-2024 Key Figures:

- **74** scholarships awarded (30 LA, 30 Africa, 14 EN)
- **33 ♀** and **41 ♀**
- **879** applicants
- **19** CG host universities

Next Call for applications: End January 2025
